

ESSB is a member of FADIO. Read and watch the short video to know more about FADIO: <http://www.fadio.net/en/home/aboutus/>

Here is our involvement in different events.

- FAD Week: We were well represented during that week as Jacob Perreault, sec 4 student at BCHS, shared his online experience (math online class with LEARN) during the “table d’échanges”. He was the only high school student participating and he expressed so much enthusiasm related to his online experience that his teacher, Peggy Drolet, has been invited to present to an upcoming conference. We also organized an English session (myBlueprint) presented by Daphnee Morin. It is also featuring Guy Gallibois and Lili Sun. <https://goo.gl/gaYw6n>

October Conference: <http://www.fadio.net/en/events/partnermeeting/>

- In a collaborative approach, Nancy Langlois (FSL Consultant ESSB and LEARN FSL Tutor) and Peggy Drolet (Online Teacher, Virtual Campus, LEARN) will be presenting **La formation à distance au secondaire, c’est possible!** and participating in a panel discussion on human relationships when learning and teaching online.
- Marie-Joëlle Allard (ELA Consultant ESSB), Sarah McGillivray (Coordinatrice de projets) and Florence Lefebvre (Représente au développement des affaires) will also be presenting a workshop on **La plateforme interactive krispii**.
